

rated investment grade in one of the two highest investment grade rating categories, and that does not otherwise qualify as a Type I security.

(m) *Type V security* means a security that is:

- (1) Rated investment grade;
- (2) Marketable;
- (3) Not a Type IV security; and
- (4) Fully secured by interests in a pool of loans to numerous obligors and in which a national bank could invest directly.

§ 1.3 Limitations on dealing in, underwriting, and purchase and sale of securities.

(a) *Type I securities.* A national bank may deal in, underwrite, purchase, and sell Type I securities for its own account. The amount of Type I securities that the bank may deal in, underwrite, purchase, and sell is not limited to a specified percentage of the bank's capital and surplus.

(b) *Type II securities.* A national bank may deal in, underwrite, purchase, and sell Type II securities for its own account, provided the aggregate par value of Type II securities issued by any one obligor held by the bank does not exceed 10 percent of the bank's capital and surplus. In applying this limitation, a national bank shall take account of Type II securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings.

(c) *Type III securities.* A national bank may purchase and sell Type III securities for its own account, provided the aggregate par value of Type III securities issued by any one obligor held by the bank does not exceed 10 percent of the bank's capital and surplus. In applying this limitation, a national bank shall take account of Type III securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings.

(d) *Type II and III securities; other investment securities limitations.* A national bank may not hold Type II and III securities issued by any one obligor with an aggregate par value exceeding 10 percent of the bank's capital and surplus. However, if the proceeds of each issue are to be used to acquire and lease real estate and related facilities

to economically and legally separate industrial tenants, and if each issue is payable solely from and secured by a first lien on the revenues to be derived from rentals paid by the lessee under net noncancellable leases, the bank may apply the 10 percent investment limitation separately to each issue of a single obligor.

(e) *Type IV securities—(1) General.* A national bank may purchase and sell Type IV securities for its own account. Except as described in paragraph (e)(2) of this section, the amount of the Type IV securities that a bank may purchase and sell is not limited to a specified percentage of the bank's capital and surplus.

(2) *Limitation on small business-related securities rated in the third and fourth highest rating categories by an NRSRO.* A national bank may hold small business-related securities, as defined in section 3(a)(53)(A) of the Securities Exchange Act of 1934, 15 U.S.C. 78c(a)(53)(A), of any one issuer with an aggregate par value not exceeding 25 percent of the bank's capital and surplus if those securities are rated investment grade in the third or fourth highest investment grade rating categories. In applying this limitation, a national bank shall take account of securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings. No percentage of capital and surplus limit applies to small business related securities rated investment grade in the highest two investment grade rating categories.

(f) *Type V securities.* A national bank may purchase and sell Type V securities for its own account provided that the aggregate par value of Type V securities issued by any one issuer held by the bank does not exceed 25 percent of the bank's capital and surplus. In applying this limitation, a national bank shall take account of Type V securities that the bank is legally committed to purchase or to sell in addition to the bank's existing holdings.

(g) *Securitization.* A national bank may securitize and sell assets that it holds, as a part of its banking business. The amount of securitized loans and obligations that a bank may sell is not

§ 1.4

12 CFR Ch. I (1–1–01 Edition)

limited to a specified percentage of the bank's capital and surplus.

(h) *Investment company shares*—(1) *General.* A national bank may purchase and sell for its own account investment company shares provided that:

(i) The portfolio of the investment company consists exclusively of assets that the national bank may purchase and sell for its own account under this part; and

(ii) The bank's holdings of investment company shares do not exceed the limitations in § 1.4(e).

(2) *Other issuers.* The OCC may determine that a national bank may invest in an entity that is exempt from registration as an investment company under section 3(c)(1) of the Investment Company Act of 1940, provided that the portfolio of the entity consists exclusively of assets that a national bank may purchase and sell for its own account under this part.

(i) *Securities held based on estimates of obligor's performance.* (1) Notwithstanding §§ 1.2(d) and (e), a national bank may treat a debt security as an investment security for purposes of this part if the bank concludes, on the basis of estimates that the bank reasonably believes are reliable, that the obligor will be able to satisfy its obligations under that security, and the bank believes that the security may be sold with reasonable promptness at a price that corresponds reasonably to its fair value.

(2) The aggregate par value of securities treated as investment securities under paragraph (i)(1) of this section may not exceed 5 percent of the bank's capital and surplus.

[61 FR 63982, Dec. 2, 1996, as amended at 64 FR 60098, Nov. 4, 1999]

§ 1.4 Calculation of limits.

(a) *Calculation date.* For purposes of determining compliance with 12 U.S.C. 24 (Seventh) and this part, a bank shall determine its investment limitations as of the most recent of the following dates:

(1) The last day of the preceding calendar quarter; or

(2) The date on which there is a change in the bank's capital category for purposes of 12 U.S.C. 1831o and 12 CFR 6.3.

(b) *Effective date.* (1) A bank's investment limit calculated in accordance with paragraph (a)(1) of this section will be effective on the earlier of the following dates:

(i) The date on which the bank's Consolidated Report of Condition and Income (Call Report) is submitted; or

(ii) The date on which the bank's Consolidated Report of Condition and Income is required to be submitted.

(2) A bank's investment limit calculated in accordance with paragraph (a)(2) of this section will be effective on the date that the limit is to be calculated.

(c) *Authority of OCC to require more frequent calculations.* If the OCC determines for safety and soundness reasons that a bank should calculate its investment limits more frequently than required by paragraph (a) of this section, the OCC may provide written notice to the bank directing the bank to calculate its investment limitations at a more frequent interval. The bank shall thereafter calculate its investment limits at that interval until further notice.

(d) *Calculation of Type III and Type V securities holdings*—(1) *General.* In calculating the amount of its investment in Type III or Type V securities issued by any one obligor, a bank shall aggregate:

(i) Obligations issued by obligors that are related directly or indirectly through common control; and

(ii) Securities that are credit enhanced by the same entity.

(2) *Aggregation by type.* The aggregation requirement in paragraph (d)(1) of this section applies separately to the Type III and Type V securities held by a bank.

(e) *Limit on investment company holdings*—(1) *General.* In calculating the amount of its investment in investment company shares under this part, a bank shall use reasonable efforts to calculate and combine its pro rata share of a particular security in the portfolio of each investment company with the bank's direct holdings of that security. The bank's direct holdings of the particular security and the bank's pro rata interest in the same security in the investment company's portfolio may not, in the aggregate, exceed the
